2 MONTHS OLD

BABY GAURI

Needs your support for planned pediatric surgery.

TREATMENT GOAL

Rs. 1,75,000

Sarvodaya Hospital
Faridabad

A FATHER'S APPEAL

"I am Anish Kumar, a farmer. My two-month-old daughter Gauri needs surgery. I am trying to arrange Rs. 1,75,000 for her treatment. Please help me give my little girl the care she needs."

This Diwali, help bring hope to Baby Gauri's family.

DONATE THROUGH: WWW.JSTNGO.ORG

JAN SANJEEVNI TRUST

HANDS TO SERVE | HEART TO LOVE

A SMALL CHILD. AN URGENT NEED.

Baby Gauri has been diagnosed with a mesenteric cyst, a fluid-filled growth in the tissue supporting the intestines. Her hospital records describe a planned surgical procedure. The hospital has estimated the treatment cost at Rs. 1,75,000.

WHY TIMELY CARE MATTERS

Mesenteric cysts may cause abdominal swelling, vomiting, pain or bowel obstruction in some cases. These are possible complications, not confirmed symptoms in Gauri. Her handwritten medical note indicates a short hospital stay and a planned operation; the precise surgical deadline should be confirmed with her treating team.

THIS DIWALI, BE PART OF HER HOPE

Jan Sanjeevni Trust requests compassionate donors to support Gauri and her family. A donation of any size can help them work toward the treatment estimate. If you cannot donate, sharing this appeal can also make a difference.

HELP BABY GAURI

Treatment goal: Rs. 1,75,000
